Single Copies 10

Tariff Bill Wilson is now postmaster general.

Annie Gould purchased her count and the goods have been delivered.

Papago county will bob up again in the legislature, although it was practically killed last Monday.

Mose Gunist will remain on the board of police commissioners, so decides the superior court of San Francisco.

Graham county will have a new paper next week. It will be published at Safford and named the Guardian.

It rather looks as though the board of control bill will fall by the wayside, as our present legislature does not look on it with favor.

Newspapers, these dull times, are a good deal like a young fellow getting married when he's broke. It don't cost anything to run a paper.

A man at Monterey, California, dined on toad-stools the other day and now he's with the angels. Toad-stools are suicidal instruments.

No. 1, Vol. I, of the Jerome Chronicle is at hand. It is neat and newsworthy and of course will fill a long-felt want in the bonanza copper camp.

Carpenter's bill providing for the erection of sign-boards on all roads and trails in the territory, directing travellers to the nearest water, should become a law.

Train robberies are all the rage throughout the country. If the railroad companies would look after the welfare of their employees fewer hold-ups would result.

Navajo county should be formed by the present legislature. We are sorry Mohave county has not the required qualifications to be cut up into a smaller political division.

Congress stepped down and out Monday, and the country and Grover are beathing easier. Grover has had a trying time with this unwieldy body on his hands for so many months.

We have received the report of Thomas Gates, superintendent of the penitentiary. It is full and complete and shows that Mr. Gates knows how to handle an institution of this kind.

"A prominent cuckoo says times are taking a turn for the better. This means lower prices and poorer business—better times for the gold gamblers and worse times for the people", is the conclusion of the Atlanta Constitution.

The Kanawha Valley Democrat last week published an interesting and well-written article on bi-metalism from the pen of Mrs. Fannie E. Scott, of Kingman. The article was favorably reviewed editorially. If Mrs. Scott would confine herself to literary work she would surely make a hit.

The MOHAVE COUNTY MINER and Cosmopolitan Magazine one year for \$4.50. All subscribers who pay up their old accounts can take advantage of this offer. The Cosmopolitan is one of the best magazines in the United States.

The bill for the establishment of a board of emigration commissioners for Arizona is a good one, and should pass. Arizona cannot be too well advertised, and any effort to make known our resources to the outside world will be duly appreciated.

A Kentucky judge took occasion to warn the people from coming into the court room drunk in these words: "I wish to put everybody on notice that if they come in to this court room while I am sitting on this bench drunk, they had better look out!"

Prescott is fortifying itself with figures showing a great saving to the territory by the removal of the prison to the Mountain City from Yuma. For our part we think the prison should be moved to a more suitable locality, but we think Mohave county is the place for it.

Dr. Johnson's desertion of his wife at Williams last week, if we can judge rightly from newspaper accounts, was cold-blooded in the extreme. He left the woman in destitute circumstances, while he took away with him \$10,000 in cash she had helped him to accumulate.

Phenix celebrates the advent of the north and south railroad on the 11th. It will be a gala day at the capital. The north rejoices with the Capital City, and hopes are entertained that the north and south road will work wonders in building up the interior of our beautiful territory.

Assemblyman Gaddis rounded up a member from Maricopa county, the other day, on the floor of the house, for insinuating that his motive in pressing his bill for the removal of the Normal school to the University at Tucson was for other reasons than that of economy. Members will not find it safe to tread on our member's corns.

The Los Angeles Herald prints a report of a wonderful gold find on the desert in the Pinon district by the M'Haney Brothers. It also tells of an old prospector who had previously stumbled onto this fabulous bonanza, but if gold was there in plenty there was also numerous dumps of human bones, and the outcropping of the spirits of the departed was too much for him, and gathering up some \$30,000 worth of bullion vomited.

"The Beautiful Models of Paris," in the March Cosmopolitan, satisfy a long-felt curiosity in regard to the women who have been posing for the world's famous paintings. The Cosmopolitan has carefully gathered a collection of the most famous of these portraits and used them to illustrate an interesting article by a distinguished French critic Fr. Thiebault Sisson. Nor does the beauty of the originals fall short of the ideal on the painter's canvas. In the same number is a delightful article about the famed sea-girl isle, for so many years a fortress and prison—Mont-Saint-Michel. "Pearl Diving and Its Perils," by an English naval officer, written from personal experiences, is perhaps the most thrilling tale of exploration of the ocean's depths ever put on paper. The fiction of this number is unusually entertaining.

The people of Mohave county now have a shining example of the folly of placing public work in incompetent hands by the failure of the official paper to publish the delinquent tax list within the time specified by law. The last day allowed by the Arizona statute was Monday. The paper was printed late on Monday night, but was not published until the following day in what was called an "extra." A close reading of the law conveys the impression that the publication of this list must be made in a regular edition of the paper, or a supplement thereto, the supplement to be published with the regular edition. The law says the tax list shall be set in brier type, while the so-called tax list, issued by the official organ, is set in long primer. 'Twas ever thus. Some people who think they know all about the newspaper business, brings into town a hatful of type and a cheese press and bids on work they cannot do against the best offices in the country and as a result gets cinched for their temerity.

Mark Twain may fight a duel with Paul Blouet (Max O'Rell), the French humorist, because of a sarcastic rejoinder to the strictures of Bourget on American women. Bourget had said:

"I suppose life cannot get entirely dull to an American, because whenever he can't strike up any other way to put in his time he can always get away with a few years trying to find out who his grandfather was."

To which Twain replied: "I reckon a Frenchman can get his little standby for a dull time, too, because when all other interests fail he can turn in and see if he can't find out who his father was."

Invalid 3 Years, Cured by Hood's

"C. I. Hood & Co., Lowell, Mass.: 'Gentlemen:—I am glad to tell you that I have been given good health by Hood's Sarsaparilla. For three years I was an invalid, suffering terribly from

Nervousness and Lameness. 'I was so nervous I could not bear the least noise, and I had to walk with crutches for six months, as I could not put one of my feet to the floor. Physicians did not do me any good, so a friend told me to get Hood's Sarsaparilla, but

I said There Was No Use. 'However, after thinking the matter over, I decided to give it a trial, and have taken six bottles of Hood's Sarsaparilla, and the result is that I am well as any one could wish to be, and can do any kind of work. I advise all my friends to take Hood's Sarsaparilla for I believe it will do them good.' Miss Susan Doreen, Colton, California.

Hood's Pills cure liver ills, constipation, biliousness, jaundice, sick headache, indigestion.
